PUBLIC NOTICE **Draft - Nevada's 2008 - 10 Integrated Report**

March 16, 2012

Draft Nevada's 2008 – 10 Integrated Report

The Nevada Division of Environmental Protection is required by the Clean Water Act (CWA) to conduct a comprehensive analysis of water quality data associated with Nevada's surface waters to determine whether state surface water quality standards are being met and designated uses are being supported.

Nevada's 2008-10 Water Quality Integrated Report was developed for use by the public, other entities, and for NDEP water quality management planning purposes. Due to delays in the 2008 Integrated report, the 2008 and 2010 reporting cycles were combined for this 2008-10 Integrated Report.

Public comments on the Draft Nevada's 2008 - 10 Integrated Report will be accepted until April 27, 2012.
